

First Announcement

2015 PLANTS FOR HUMAN HEALTH INTERNATIONAL WORKSHOP Dushanbe, October 12-15

Organized by: INTERNATIONAL RESEARCH TRAINING CENTER FOR BOTANICALS AND METABOLIC SYNDROME (CBMS) - cbms.rutgers.edu

Институти тибби Авиценна
ва фармакология

Institute of Avicenna's
medicine and pharmacology

ТИББИ

АМРОЗ

PREVENTIVE MEDICINE

And Other Tajik and Central Asian Institutions

Background: CBMS was established in Tajikistan in 2014 with support from the US National Institutes of Health. CBMS integrates, in a culturally sensitive way, intensive didactic training in western science with strong knowledge of traditional botanical medicines. Its goal is to develop a sustainable mechanism for graduating Ph.D. and postdoctoral-level research scientists who can merge these two systems for the benefit of Tajikistan. CBMS focuses on metabolic syndrome (MetS) and diabetes providing research training with an emphasis on anti-diabetic botanicals, life cycle studies and early life determinants of chronic diseases. One of CBMS' missions is to organize annual workshops on the subject of *Plants for Human Health*.

Planned Sessions

History of medicinal botany in Central Asia
Marketing botanical products
Botanical and chronic diseases
Botanicals and economic development

Medicinal plants of Tajikistan
Cultivation of medicinal plants and manufacturing of botanicals
Methodology of botanical research
Studying pharmacological effects of phytochemicals

Member Institutions

USA

Rutgers, The State University of New Jersey
Pennington Biomedical Research Center
Eugenio María de Hostos Community College
North Carolina State University (NCSU)

TAJIKISTAN

Center for Preventive Medicine
Institute of Avicenna's Medicine and Pharmacology
Avicenna Tajik State Medical University
State Center for Nutrition Problems
Tajik National University
Pamir Institute of Biology

Organizing Committee

Ilya Raskin – Rutgers University (Chairman)
Yusuf Nuraliev - Institute of Avicenna's Medicine and Pharmacology (Co-Chair)
Saidbeg Satorov - Center for Preventive Medicine (Co-Chair)
Vyacheslav Dushenkov - Eugenio María de Hostos Community College
Shoista Sagdieva - Tajik State Medical University
